A DECLARATION OF INDEPENDENCE FROM THE NEW BRITISH EMPIRE:
DONALD TRUMP WON THE ELECTION, DON'T LET THEM STEAL IT

"When in the course of human events, it becomes necessary for one people to dissolve the fetters by which an oligarchy has bound them, and to assume their inalienable rights to life, liberty, and the pursuit of happiness, a respect for the opinions of mankind requires that they should declare the causes which impel them to this action."

Our War of Independence is Not Finished

The British Empire has been at war with Donald Trump long before he became President, and now seeks to overturn his reelection and impose their fascist coup upon the American people.

It is that same British Empire which has been at war with LaRouchePAC's late founder, Lyndon LaRouche, who, long ago, declared the only real enemy of this nation, of all sovereign nations, to be the British imperial system. In true American fashion, LaRouche devoted his life to providing all nations with the political ideas to crush this global financier elite, and was hence subjected to the same political and legal assault that has now been thrown against President Trump.

The oligarchy of the City of London's banks and the extended global British financial empire are now seeking to impose their thoroughly plagiarized candidate, Joe Biden, a hollow man or hologram, as President of the United States. The Biden regency will be nothing less than the total destruction of our national productive culture and Constitutional system. It will immediately implement the radical "Green New Deal," which is only an excuse for the global central banks to impose their "Great Reset," ultimately seizing complete control of our currency, credit, and all future investments. It intends to use this control to fundamentally reverse the technological advance of humanity—sacrificing the human population to "saving the planet."

This is the ultimate act in "a long train of abuses," which include destroying America's industry, attacking its technological progress, maligning its scientific optimism, ending its manned missions in space, controlling its banks, undermining its currency and credit in the world, and intends to destroy the American Spirit.

Our President Trump, almost alone among leaders of nations, has rejected this dictatorship of central banks over sovereign governments, and has removed the United States from the Paris Climate Accord, which was the evil spawn of those such as Prince Charles, the former Bank of England head Mark Carney, billionaire Sir Michael Bloomberg, among other Malthusian nuts.

President Trump has further sought to extricate us from endless wars, to establish working relations with the other superpowers, and to reestablish a period of peace and development globally, despite efforts of the multitude of war hawks in his own Administration. Were the Biden team to seize power, we will face an immediate escalation towards World War. The nations of the world are looking to the American people.

It is now time to seize our rights.

With President Trump in office, and with Lyndon LaRouche's policies in your hands, we will take back the right to regulate our banks, to have national banks and productive credit, and build our nation for future generations. We will advance our missions of space exploration and fulfill the development of commercial fusion energy to regain our industrial might. We will negotiate with all nations for a new international credit system which eliminates the control by London's financial oligarchy, and we will bring industrialization to all underdeveloped regions, including those here in our country, in the Americas, and in Africa.

It is time to reclaim the true United States. The world is watching.
